I'm selling this coupe for my father in law. I have been told it's a 31 because of the indented firewall? The car is pretty much complete, except for piece under the deck lid and rear bumper. The car is pretty solid but has some bad spots that I will try and describe. Running board have rust where the braces are underneath. The passenger door shows a little spot of rust. The drivers dooor has a rip hole in the bottom. The drivers side cowl has a dent in it. The deck lid is rough. The right quarter has a stress crack by body line under quarter window about 4 inched long. The passenger quarter is just starting to crack. Inside of trunk, the floor has a crack and hole broke in it where the frame quits. Headlight bar is welded to fenders. Passenger fender is fairly nice. Drivers fender is welded and a little rough. Both rear fenders have been welded close by the body. The hood is fairly nice. No rust in the cowl or quarters. Doesn't have the original wheels. It is a roller. Overall the body is pretty solid, I just wanted to describe the bad spots, so you wouldn't expect too much. I have to described this car the best I can. No title, but a bill of sale will be provided. I can be reached at 308-760-5027 and will try to answer your questions. More pictures can be available if requested. \$400 non refundable deposit in paypal at auction end and the rest in cash when car is picked up. Buyer is responsible for shipping arangements. Will store for 30 days.
