This is a 1974 Volkswagen beetle with a 1600cc engine. This was going to be my project but unfortunately I go laid off and I need to sell the car asap. The engine was rebuilt by the previous owner and it runs GREAT!! the transmission is good. It shifts smoothly into all gears. The car has minor body rust for the years. However, the car needs new floors, they run for about \$300 the pair. I was going to do it myself but I got let go before I got to it. I still drive it with a

piece of wood I laid in the front hole, but it wont be good for daily driving since they will need to be replaced. Besides the floors and a new paint job, this car is very complete. I just want to get close to what I paid for. I need to SELL ASAP! Offers welcome.

On Jan-27-10 at 20:59:29 PST, seller added the following information:

The horn, radio/cd, and lights work. remember, you are not bidding on a restored vehicle, but this car is in pretty good shape. the main problem is the floors that need to be replaced, because the rust in the car is not bad at all. This car is being sold as is. Please ask questions if you have any concerns.
